Where do I live		
My story and why I need a sponsor.	<p>Martha stays with her single mother, She has had medical complexities which affected her education. She got her tonsils operated in 2007 when she was just six years old still today it has remained a medical challenge mostly in breathing. Martha is in school and very committed to persue her Education amidst all her health problems. Her mother being single, she can't manage to get her fees. The other task the mother has is to provide Martha with special foods to keep spirit and boost her motivation and immunity and even always pay for her medical bills. Currently she's in S.4 she tries in class and without all that she would be a school dropout now at an early age and be abused in different ways. Martha's mum has another burden of her mother who is aged with a lot of complications health wise. As if that is not enough she even has other children to take care of. Kindly help that young lady in her Education. With God all is possible. Her future dream is to become a surgeon. God bless you.</p>
